

# PRODUCT GUIDE

**FIXKART**

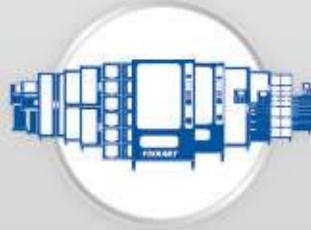

**TAKING AWAY  
COSTS, DELAYS, AND  
BURDENS SO YOU  
CAN DO MORE OF  
WHAT YOU DO BEST.**

#### **IN-MARKET SERVICING LOCATIONS**

Positioning sales personnel and customized inventory close to your facilities.

#### **INVENTORY SOLUTIONS**

Helping your business reduce inventory, touches, and total costs.

#### **RELIABLE DISTRIBUTION**

Controlling the flow of product from the factory floor to your points of use.

# GREAT PEOPLE, CLOSE TO OUR CUSTOMERS.

**The following pages cover our solutions, services, and products. But it all starts with something much more basic – great people, close to our customers.**

**A couple of essential facts about our business model:**

We operate more servicing locations and inventory solutions than any other industrial supplier in India. offering a uniquely efficient, agile supply chain for our customers.

Roughly three-quarters of our 210 + employees are sales personnel who directly serve customers, reflecting our commitment to local, personal service.

## THE POWER OF **PRESENCE**

Our local presence sets the stage for flexible delivery, hands-on inventory management, and customized service reflecting your unique business goals. In an industry that's becoming increasingly centralized and transactional, we're invested in moving closer to your business – in terms of proximity and partnership. Bring us your supply chain challenges, and we'll tap into our global resources to provide a custom local solution.

# SUPPLY SOLUTIONS

With competition and cost pressures on the rise, the challenge is to achieve more with less for your customers – less cost, less waste, less time.

We're ready to make an impact by reducing your inventory, shouldering the burden of material management, and bringing visibility and control to everyday shop supplies, transforming a cumbersome cost center into a competitive edge for your business.

A great solution begins with a simple question:

## What are your supply challenges?

- Excess inventory tying up working cash and space?
- Delays and back orders due to stock-outs?
- Lack of visibility into current inventory (overbuying)?
- Purchasing energy drained by unplanned spend?
- Complex processes, difficult to train/maintain?
- Frequent rush orders, high freight costs?
- Excessive walking/waiting time to retrieve supplies?
- Hoarding and over-consumption?
- Uncontrolled spending?
- Labor consumed by material management?
- Fragmented vendor base (non-leveraged spend)?
- Product quality issues?
- Tool loss/asset tracking?
- Inconsistent pricing?
- Redundant/overlapping SKUs?
- High cost of P.O.'s?

What follows is a quick look at our core inventory solutions – the ‘building blocks’ that can be customized and combined to craft a solution for your business challenges.

# BIN STOCK

Our bin stock service is at the heart of who we are: a supply chain partner that's 'local' enough to handle the day-to-day work of material management, but 'global' enough to bring real value to the venture – in terms of product scope, quality assurance, cost savings, logistics, and technology.

## WHAT WE BRING

Inventory is strategically positioned, well organized, and clearly labeled.

Your inventory needs are stocked locally and supplied through a consistent service schedule.

If desired, our local team can monitor your inventory and put the product away.

Our regional distribution center adapts its inventory based on usage patterns and forecasted needs, orchestrating efficient delivery routes to keep product flowing.

Virtually any fastener or indirect product need can be sourced through our network of qualified suppliers.

Custom reports give you insight into usage by location, GL code, and other metrics you define.

## WHY IT MATTERS

*Spend less time walking and searching, more time on things that generate profits.*

*Reduce inventory, outages, and costly rush orders; improve working capital and productivity.*

*Less inventory build-up, more productive use of labor.*

*Reduce freight costs through smart inventory planning and utilization of Fixcart logistics fleet.*

*Cost savings through vendor consolidation and product standardization/substitutions.*

*Simplify job costing, uncover opportunities to further optimize inventory.*

# SOLUTIONS

## **FIXKART MANAGED INVENTORY (FMI)**

Your local Fixkart representative visits on a regular service schedule to monitor, refill, and optimize your inventory.

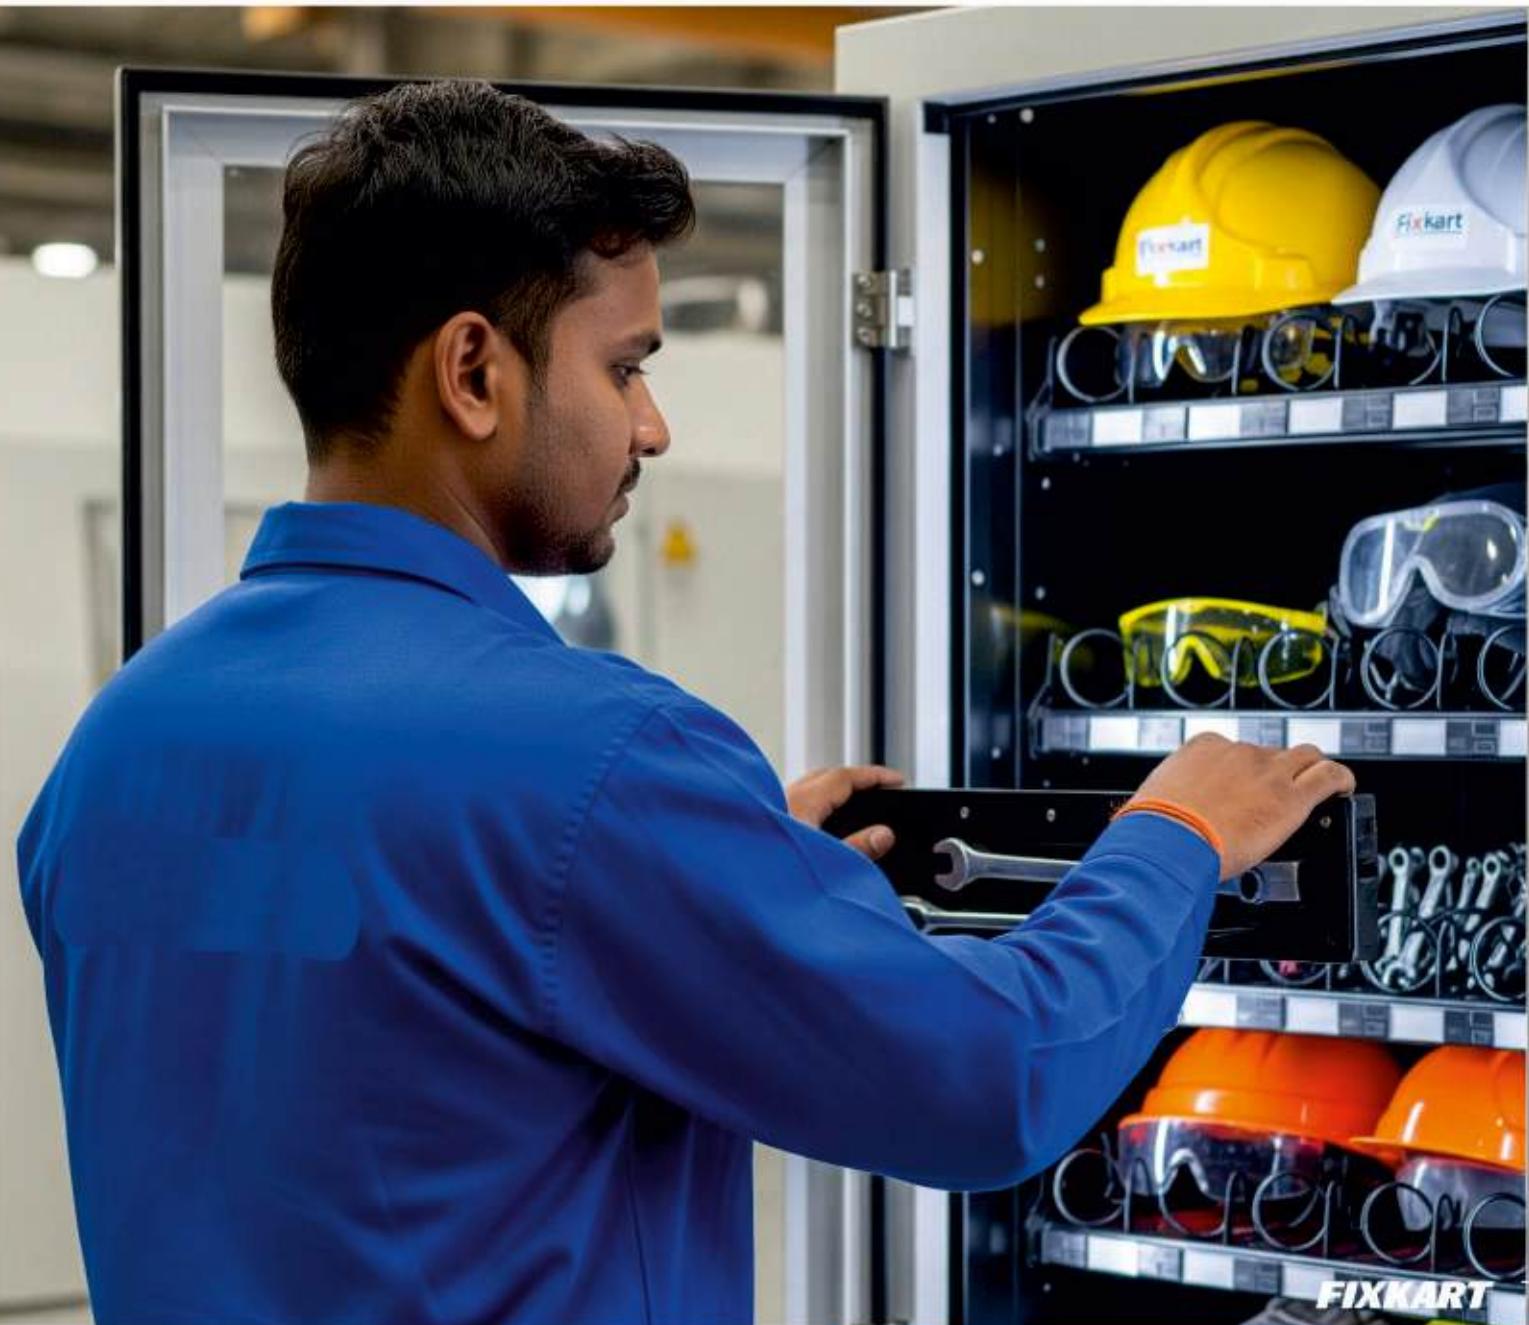

## **SELF-SCAN SOLUTION**

Utilize our labels and scanner device to quickly generate your own orders; backed by flexible delivery and reporting by your local Fixkart branch.

## **AUTOMATED SOLUTIONS**

Our RFID, infrared, and scale devices report your current inventory status and automatically generate orders when stock runs low.

**A simple way to accelerate production, reduce consumption, increase safety, and gain visibility into your supply spend. Service is what sets the program apart – a local team to replenish, maintain, and continually optimize your solution for maximum impact. We take care of the machines. You take care of business.**

## **THE FIXKART ADVANTAGE**

Diverse lineup of machines to support wide-ranging product needs.

Dynamic reporting and real-time data: when, where and how *you* want to see it.

Low-cost, low-risk program – no capital expense or long-term contracts.

Local Fixkart personnel monitor and replenish the machines – no paperwork or labor required.

Ongoing program optimization to keep pace with your changing business needs (right technology, right products, right amounts).

### **COIL MACHINES**

A battle-tested solution for high-use MRO and safety supplies.

### **LOCKERS**

Vend bulky items; track and control assets.

### **SENSOR DEVICES**

Bring control, traceability, and 'grab and go' access to products of all shapes and sizes.

### **CUTTING TOOL MACHINES**

Dispense and track inserts and round tools, either individually or in specific quantities.

# SMALL FOOTPRINT. BIG IMPACT.

## IMPROVE WORKING CAPITAL

When we move onsite, we sell down your current inventory and phase in our own. Moving forward, the inventory is on our books until the product is moved to the production floor – a INR-FOR-INR improvement in working capital.

## REDUCE COSTS

Drive down expenditures through leveraged buying power, consumption control, reduced freight, product substitutions/standardization, and a lower markup structure (reflecting the efficiencies of our onsite service model). In terms of total cost of ownership, our goal is simple: streamline TCO to the point that the only cost is the price of the product.

## OPERATE MORE EFFICIENTLY

Fixkart brings decades of experience in quality/source control, critical spares management, inventory planning, and point-of-use supply flow. With well over 100,000 inventory solutions in place with companies around the world, we are experts – with the knowledge, solutions, and systems to run a world-class supply chain for your business.

## MEASURE AND IMPROVE

An onsite implementation is the beginning of a continuous improvement journey – bringing ideas, participating in kaizen events, and measuring our impact through formal business reviews and custom reporting that reflects your goals and priorities. Our mission: a transformative program that only gets better over time.

# E-BUSINESS

At Fixcart e-business means more than efficient ‘drop ship’ transactions. It means empowering your business with simpler processes, greater control, deeper visibility, and tools that make our local service even faster.

## EXPRESS

Pointing you to the fastest solutions to your product needs, including thousands of high-demand items stocked at our local branch for same-day fulfillment.

## ADVANCED PERMISSION SETTINGS

Set employee purchase limits, maintain authorized users and approvers, and create a custom approval workflow to control non-compliant spending.

## eQUOTES

Quickly review, edit, and approve quotes from your servicing Fixcart branch, including suggested VMI replenishment orders.

## ALTERNATE ITEMS

View the product you originally searched for alongside alternatives offering the same fit, form, and function – potential solutions for a faster lead time or lower cost.

## B2B INTEGRATION

Our integrated solutions provide cost savings in the procure-to-pay cycle by automating the exchange of business documents (e.g., POs, invoices, and ASNs) between your ERP or eProcurement system and Fixcart system. Most of our integrated customers also implement a Fixcart punchout allowing for:

- Shopping cart to purchase requisition creation
- Catalog restrictions & custom messaging
- Dynamic contract pricing
- Real-time local product availability
- eQuotes (VMI/Vending)

The screenshot shows the Fixcart software interface. At the top, there's a navigation bar with links like Catalog, Vendor Agreements, Services & Management, Support, and Helpdesk. Below the navigation is a search bar and user account information. The main area has a title "Usage by Channel/Category". It includes a filter section with dropdowns for Account No. (Facilities), Start Date (01-Jan-2017), and End Date (12-Mar-2017). There are two pie charts: one for "Channel" (27% Direct, 73% Indirect) and one for "Category" (30% Electronics, 20% Office, 10% Industrial, 10% Tools, 10% Safety, 10% Cleaning, 10% Parts). Below the charts is a table titled "Usage by Channel/Category" with columns: Image, SKU, Customer Part, Description, Channel, Category, Qty, Total Spend, Invoice #, and Invoice Date. The table lists several items, such as 0139022, 0137006, 0140274, 0140274, 0140274, 0140274, and 0140274, with their respective details.

*\*Customer facility data is available for registered users participating in a Fixcart inventory management program.*

## FIXKART 360°

A dynamic view of your spending activity, your current inventory, and exactly where product 'lives' in your facilities, down to the specific bin or vending location.\*

### MY SPEND

Take a deep dive into the data to gain insight into your spending patterns. Uncover opportunities to consolidate purchases and shift recurring orders to an efficient inventory solution.

### MY BUSINESS

See the locations of your Fixcart inventory solutions across your facilities. Drill down as if you're standing in front of a specific bin stock or vending device.

### MY INVENTORY

Search for specific products across all facilities and receive alerts when you attempt to purchase items you already have on hand – a unique tool to avoid over-buying.

# CUSTOM MANUFACTURING & INDUSTRIAL SERVICES

At Fixkart, we don't just sell and distribute products. Our engineers, skilled machinists, and quality experts create custom parts that keep our customers running. The combination of in-house manufacturing and local distribution means a seamless solution for your business – from prototype, to production, to point-of-use delivery.

## THE 4 PILLARS OF **FIXKART MANUFACTURING**

**HOT FORGING** – Hot forged bolts to meet your requirements, from 3/8" to 4-1/2" diameter in a vast range of materials and head styles.

**COLD FORMING** – Specializing in high-volume Made in the USA parts ranging from #4 x 1/4" up to 3/4" diameter and 12" long.

**PRECISION MACHINING** – With 350 skilled machinists and 220 CNC machines, we're ready to create your next prototype, production component, or replacement part.

**STUD BOLTING** – High-integrity stud bolting solutions for the oil & gas industry. Specialized fasteners are marked with the API monogram.

## SALES SPECIALISTS

Looking for high-level consultation in a specific area? That's where our sales specialists step in – troubleshooting issues, providing answers, and bringing expert eyes to uncover opportunities for your business.

**SAFETY** – helping your team avoid incidents and citations, optimize safety spend, and create a safer, more productive workplace.

**LEAN SIX SIGMA** – utilizing the principles of lean manufacturing to uncover sources of waste and implement process efficiency.

**METALWORKING** – presenting the best tool for the application, including optimal speeds and feeds to maximize performance and tool life.

**CONSTRUCTION** – leveraging Fixkart local footprint to provide impactful services and solutions along with consistent pricing, service levels, and reporting for national construction companies.

**SOLUTIONS** – drawing on our 'toolbox' of technologies to craft a custom supply solution that syncs with your need, your culture, and your goals.

**GOVERNMENT SALES** – bringing a deep understanding of the government procurement process to create value for state, local, and higher education customers.

# FIXKART BRANDS

Fixkart has developed tens of thousands of SKUs under our lineup of exclusive brands. Our product designers ensure that quality is never sacrificed in pursuit of pricing, leveraging our supply chain efficiencies and direct partnerships with world-class factories to deliver a powerful value proposition: cost savings without compromise.
